PREPARING TO SHOP THE NORDSTROM

ANNIVERSARY SALE

with lynzy

This sale is one of my favorite sales all year and you can snag some amazing items that don't typically go on sale! Best thing you can do to get the most out of the sale is to plan. I wanted to create this printable for you so that you can stay on track and shop smart! Fill this out and check back on it frequently to remind yourself of your budget and what you are looking for!

first

SET YOUR BUDGET

Determine what you want to spend during the sale. For me, my budget for this is higher than anything else all year simply because I stock up on my kids winter coats, new running sneakers for myself and items that are necessities! Keep that in mind when setting your budget.

OVERALL BUDGET: _____

second

Take inventory of your closet and write down what you are on the hunt for. Write these things below.

third

Determine what other items you are looking to find. Are you looking for a new rug? Winter coats for your kids? An infant car seat? All of these items are also part of the sale so write them down below!

Once you are done, keep it handy to check back on! Once you buy the item on your list, cross it off! I would love to see your completed lists, so be sure to send them to me by email or through Instagram.

HAPPY SHOPPING!
